

# CUCAMACUCA STAIRWAY

## PALEOZOIC WAY

### Variant

*From this point you can go straight on and climb up the stairway to the Santa Justa Chapel, or take a detour along the flat walkway that connects to Rua Padre Santos Loureiro and then to the amphitheatre, where you can re-enter the CucaMacuca StairWAY.*

*This alternative offers a panoramic view of the Santa Justa Mountain range and Valongo valley, flora species, with the possibility of also spotting birdlife due to the unobstructed view of the treetops below.*

*Along Rua Padre Santos Loureiro you can see some of the local geodiversity.*
